

## PHL DIAL AND COMMERCIAL.

TUESDAY, April 26—P. M.  
The stock market exhibited signs of weakness this evening, and revised all attempts to give it a buoyant tone. Harlem Railroad, however, was put up to 23¢, which is an advance of eight per cent., and at the same time it was sold for 212, paid thirty days. Compared with the sales at the first board yesterday, New York Central advanced 4¢, Erie Railroad 4¢, Hudson River 4¢, Harlem 8, Rock Island 1, Michigan Central 12, Michigan Southern 1½, Illinois Central 1, Chicago and Rock Island 1½, Chicago and Alton 1, Cumberland Coal 6½, Canton Company ½, and Quicksilver Mining 1½. Milwaukee and Prairie du Chien declined 1½, Cleveland and Pittsburgh 1, Galena and Chicago 1, Cleveland and Toledo 2, Alton and Ferne Flane 4, and Marquette Mining 2. The quotations with which the foregoing comparisons are made were nearly all those of the opening sales, from which most of the shares materially declined before the close of the call.

There was a disposition to buy in the afternoon, and the market became more firm. The following were the closing quotations:—New York Central 155½, Erie 115½, Hudson River 20½, Rock Island 18½, which is 3½ down from the first board; Michigan Southern 102, Michigan Central 124½, Illinois Central 13½, Cleveland and Pittsburgh 12½, Ferne Flane 12, Chicago and Northwestern 10, Galena and Chicago 12½, Toledo and Wabash 11, Cumberland Coal 17, Canton Company 40, and Quicksilver Mining 74.

There was a disposition to buy in the afternoon, and the market became more firm. The following were the closing quotations:—New York Central 155½, Erie 115½, Hudson River 20½, Rock Island 18½, which is 3½ down from the first board; Michigan Southern 102, Michigan Central 124½, Illinois Central 13½, Cleveland and Pittsburgh 12½, Ferne Flane 12, Chicago and Northwestern 10, Galena and Chicago 12½, Toledo and Wabash 11, Cumberland Coal 17, Canton Company 40, and Quicksilver Mining 74.

Gold opened this morning at 184, and was run up to 185, from which point it settled down to 179½. Subsequently it took a upward turn, and reached 182½, and during the remainder of the day it retained the fraction between 181 and 182. There was considerable excitement, and a great many small lots were sold.

The Assistant Treasurer reports to-day as follows:

Amounts on hand, \$30,452,144  
Receipts from customs, 850,458,154  
Total, 1,253,500

Total, \$30,452,144  
Payments, 850,458,154  
Balance, 140,000

The forty-five per cent. loan is gradually gaining in popular favor, and the indications are that it will be adopted much sooner than the government anticipates. The interest, like that on the seven-thirty Treasury notes, is payable in coin, and at the present premium on gold is equal to nine per cent. in currency. It is beyond question the best and safest medium for permanent investment which is at present offering. Like the five-twelfths, the bonds will no doubt command a premium after the loan has been all taken.

The bills now before Congress, having reference to the business of stock brokers and speculators in gold and foreign exchange, contain the following provisions:—

1—Makes it unlawful to enter into any contract for the purchase or sale of any gold or silver coin or bullion or foreign exchange to be delivered at any time subsequent to the making of such contract. Penalty one thousand dollars and three months' imprisonment.

2—Prevents the payment of any sum, either fixed or contingent, in the suit of the delivery of any coin or bullion or foreign exchange. Same penalty.

3—Requires the immediate manual delivery of all coin, bullion or exchange which may be sold, and the prompt payment in full of the agreed price thereof by the manual delivery of the amount in United States notes or national currency—no certified checks or State bank notes to be used in payment. For any violation of this stipulation the penalty is also to be one thousand dollars and three months' imprisonment.

4—Permits to make any contract whatever for the sale, loan or delivery of any coin, bullion or foreign exchange of which he or they making such contract shall not at the time of making it be the owner and in actual possession. Penalty similar to the above.

5—No person shall make such contract at any other place than the ordinary place of business of either the purchaser or seller. Penalty one thousand dollars and three months' imprisonment. The intention of this provision is to stop the sales of coin at the brokers' boards and to break up the gold exchange; but the object will not be attained, for the simple reason that the gold-room is the "ordinary place of business" of all who speculate in gold.

6—All contracts made contrary to the above provisions are, in addition to the penalties, declared absolutely void.

7—All sales of gold and silver coin, bullion, sterling exchange, notes, stocks, bonds or other securities to be taxed one-tenth (two mills) of one per cent., or two dollars on a thousand, on the amount of the sales, and the same upon all contracts for such sales.

8—Any person or company who shall sell or offer to sell gold or silver coin, bullion, sterling exchange, uncertain money, promissory notes, stocks, bonds or other securities without a license, shall pay 50¢ per cent in addition to the foregoing sum.

The aggregate value of the exports of produce and merchandise, exclusive of specie, from the port of New York during the past week was \$2,953,674.

The following comparative statement shows the average condition of the leading items of the Philadelphia banks for the past and previous week:—

Last Week. This Week.  
Loans, \$30,532,326 39,570,567  
Spectr. 4,095,357 4,095,475  
Legal tender, 13,714,028 14,023,922  
Deposits, 1,000,000 1,000,000  
Circulation, 2,329,400 2,326,366

The imports at Boston for the two weeks ending April 22 were \$2,609,155. The exports for the week ending April 22 were \$347,004, against \$213,567 for the corresponding week in 1863.
